ADVANCED HEPA FILTRATION

For healthcare facilities, isolation rooms and infection control areas

CLEAN AIR is the key factor in creating a safe environment for patients and staff. The hospital and healthcare environments require high quality air management solutions to protect patients and staff against infections and occupational diseases. Our units offer complete air purification solutions against airborne microorganisms (bacteria, viruses, and fungal spores), gaseous contaminants, chemicals and odors.

PRODUCT HIGHLIGHTS

- High volumetric flow rate
- Whisper quiet operation
- Filtration system: prefilter, high capacity and HEPA filter
- Intelligent controls, digital speed control, audible and visual alarms, "Autoflow" feature*

* As debris starts accumulating in the filters, the air flow through the unit decreases. The "Autoflow" feature increases the motor speed automatically to increase air flow.
