

BP2000

MULTIPURPOSE AIR PURIFIER

Designed to handle high concentrations of chemicals, gases, odors, particles and biological contaminants, the BP2000 delivers superior air quality for residential and commercial spaces, office buildings, clinics, print shops, labs and any workshops or production facilities that require effective air filtration.

All units come with an intelligent control panel featuring digital speed control and audible/visual alarms.

The unit's standard configuration include adjustable inlet and discharge grilles, power cord and all the necessary filters for the chosen application (gas only, gas and particles, particles only).
